I have played to previous match-3 of Rumbic and they were good ones, so what happened here ? Time or moves are limited. The number of powers too and it's impossible to buy new ones. They are granted when advancing in the levels (so they are extra rares). So. Buy this game only if you like to loose again and again until luck helps you. That's not my case.. I have played to previous match-3 of Rumbic and they were good ones, so what happened here ? Time or moves are limited. The number of powers too and it's impossible to buy new ones. They are granted when advancing in the levels (so they are extra rares). So. Buy this game only if you like to loose again and again until luck helps you. That's not my case.
